Thank you for your consideration in joining Medicaid Health Plans of America (MHPA). As an association, we are solely focused on representing Medicaid programs because our members believe in the value and importance of providing integrated, capitated care to our nation's most vulnerable populations. MHPA is dedicated to being the premier resource for both elected policymakers and regulators to help them make informed, quality decisions that support the continuous improvement of America's most important insurance program.

MHPA's platform is uniquely powered by the member plans of our Association. We are comprised of all types of Medicaid managed care organizations: multi-state Medicaid managed care plans that have traditionally been Medicaid insurers; commercial insurers with Medicaid lines of business; Blue Cross and Blue Shield plans; and single state for-profit and not-for-profit plans.

Craig A. Kennedy
MHPA President & CEO

MHPA's mission is to forcefully advocate for the value of managed care in the Medicaid program. Our Board is made up of leaders who are accountable for their plans' Medicaid markets. The collaborative efforts of our Board provide a strategic overlay to the development of policy and advocacy tactics that help inform and educate stakeholders about important questions relating to the program and its future. This charge extends beyond Congressional and White House staff, and includes regulatory experts at the Centers for Medicaid and Medicare Services (CMS) and the Department of Health and Human Services (DHHS). We also extensively coordinate with state health plan trade associations to help drive plan efforts nationwide.

We would welcome the opportunity to talk with you and your team about the benefits of joining MHPA and how we can work together to help strengthen Medicaid today and into the future!
